ACCELERATED DRAIN SSERVICES LTD

ENVIRONMENTAL POLICY

Accelerated Drain Services Ltd is a business supplying drainage services to the domestic and commercial sector in London and the South East. We also offer both reactive and planned maintenance drainage contracts to the commercial sector. We are committed to pursuing the best environmental practices and conducting our business activities in a manner that recognises our responsibility to the environment.

Our environmental aims will be achieved by:

- Setting and reviewing appropriate environmental objectives and targets.
- Managing, evaluating and identifying any area of our business that may have an environmental impact and reducing or eliminating the likelihood of any adverse impact on our surroundings.
- Complying with all relevant legislation and statutory requirements.
- Making a commitment to prevent pollution from any Accelerated Drains UK Ltd activity and superseding expectations set out in the Environmental Protection Act 1990
- Using only appropriate materials and reducing energy wastage, also by implementing any waste reduction policies that are appropriate.
- Encouraging all of our suppliers and other associates to develop environmental policies in line with our own and trying to ensure they comply with our environmental requirements.
- Training all employees to be aware of any environmental issues appropriate to their tasks.
- Co-operating and communicating openly with our employees, any other organisations, or the public, in order to share our vision of improving the environment.
- Making this policy document available to anyone who wishes to inspect it.

Accelerated Drain Services Ltd will always try to work with our customers to co-ordinate compliance with our Environmental Management Systems in order to provide a positive impact in this area of our business.
